3

Alias

Owner: Peter Newman

The Alias is 6'9" x 19 $\frac{3}{4}$ " The Alias was made by Chris Jones & Roy Lenton in 1980 at their factory in White Cross, Newquay.

CJ of course was chief shaper for Bilbo in the 60s & 70`s, and is still making his own CJ logo boards in Newquay today.

4

Bilbo

Owner: Tony Cope 8` 0" long Bilbo big wave board (gun), made about 1970-71. Red deck, green bottom, black pin lining. Shape is similar to Bob McTavish`s Australian `Tracker` boards.

Has a 1960`s fin box, but the original owner had discarded the original fin & fitted a 70`s Bilbo `shark` fin, held in by two woodscrews (!).

This fin has recently been fibre glassed into a 60`s Bilbo fin base, so it now fits into the original box properly ie., it won`t come out in the surf, but can be replaced at will with a 60`s Bilbo fin if required.

70`s Bilbo team rider & GB / European champion Roger Mansfield was shown this recently & said "That`s amazing, I`ve never seen anything like it before from Bilbo".

So - it`s rare ,

5

Gordon & Smith

Owner: Tony Cope

Gordon & Smith (USA) ` Gypsy Ryder`

6` 8" , blue deck, plain bottom, black pin lines .

Made under license by Tiki in Braunton about 1970-71.

The foam has collapsed in places (as quite a few Tiki`s did in this era) but it`s still a lovely shape and has attracted some recent interest from people looking for a wall- hanger.

It`s also attracted a lot of interest in GB & also in Australia from collectors who want the fin & box !

This is because it`s a `WAVESET variable` installation, of which few now survive, as they were made of LEXAN, a material that often goes brittle over time.

Offers of £50 have already been received for the fin & box alone.
